Introducing Helaplus

Powering the Next Generation of Fintech Innovations

helaplus

OUR MISSION

We are on a mission is to enable any company use digital financial technology to better acquire, serve and retain customers

Infrastructure | Licensing | Funding partners | VAS | Financial E-cosystem

APIs

at the core

At the core of our products are APIs.

We are exposing hundreds of APIs that we have built over the years.

We are also organising information from the internet and building non-existent APIs to make unique innovations possible

Mini Apps

We then combined APIs to solve very specific problems.

These apps are 'templates' for anyone to build upon.

Platforms As a Service

We provide end-to-end platforms to help literally anyone start, run and maintain a business in virtually any sector/vertical.

Credit Scoring

Credit Score based on defined algorithms

CRM

Customer Relationship Management

Reconciliation

Daily reconciliation and reprocessing of missed Payments
